

## Your Caravan, Your Way

Build your ultimate caravan with Hammer Van. Fully customisable window options, including retro customisable after you've purchased.

[READ MORE](#)

### UNIQUE HAMMER VAN FEATURES

#### Custom Panel Options

For each window bay you can choose to have:

- A round opening porthole window
- A full size picture window in unbreakable Plexiglass
- Or a solid wall panel

And then...

After purchasing your caravan, you can easily retrofit any panel to a different type.

Hammer Vans are the strongest caravans money can buy. 100 x 50 alum welded frame and 9mm thick marine ply wood walls add only 10% more weight to the van, but 1000% to the strength.

The totally unique way these caravans are built, inspired by the rugged Aussie bush environment, is a world first. There is nowhere else that caravans are made this way.

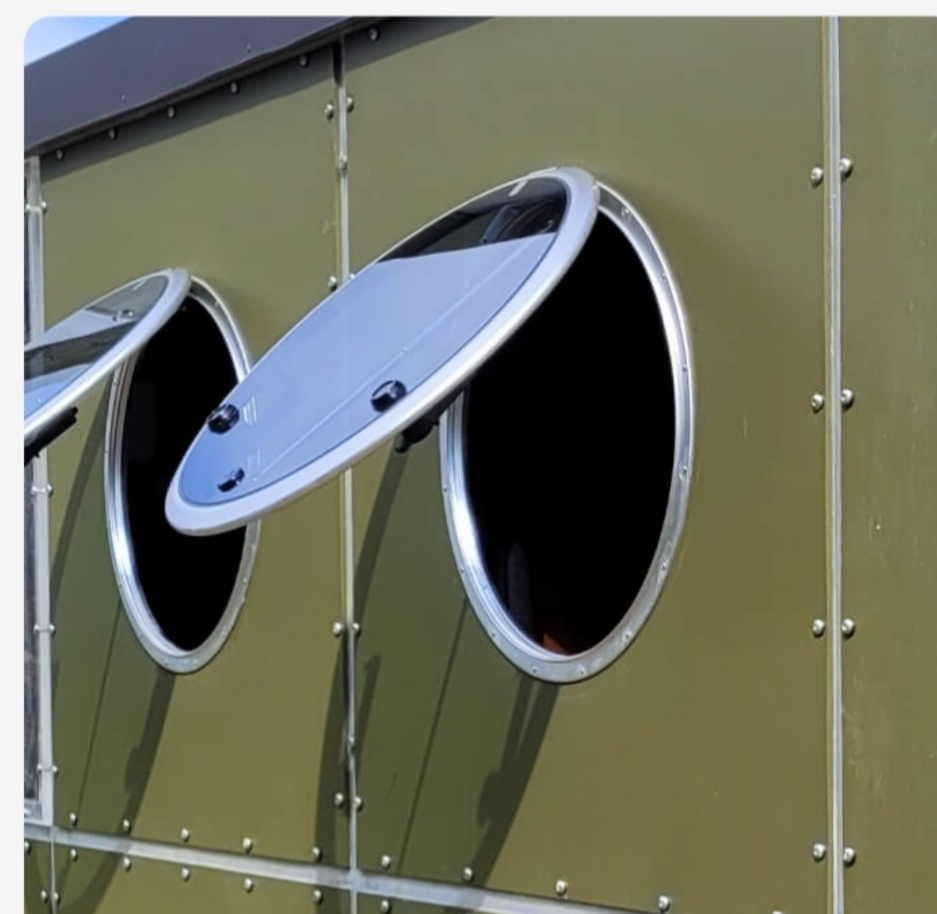

#### Solid panel

Enjoy ultimate privacy with our robust solid panels.

#### Fixed picture window

Embrace stunning views with our fixed picture windows.

#### Opening porthole window

Stay connected to the outdoors with our opening porthole windows.

#### Versatile door panel

Install on either or both sides of the caravan for optimal functionality.
